

UNIQUE PROTECTION

PREVENT ROOT-STICKING WITH ROOT BARRIER

Root Barrier is a unique and innovative protective layer for your plant's roots!
By applying a protective layer to the tray the sticking of roots is reduced.

- Makes automatic transplanting with more mature plants possible
- Less damage and rejects by reduced root sticking
- Flexibility in the production process; plants can stay in the trays longer

GROUND BRAKING TECHNOLOGY IN HORTICULTURE

- Proven technology
- No effect on water quality (inert material)
- No residue in drain water
- Recyclable
- Can be applied to all types of Modiform trays

Root Barrier is developed in cooperation with LKP Plants and Van Tuijl and exclusively available at Modiform.
