TREE TRAYS

1933

Achieve more profitability in your nursery with this 18-hole tree tray!

Thanks to the smart design an additional 18 plants can fit on the Danish shelf which amounts to 24 plants per m².

- Optimal loading in the nursery and during transport;
- The smart design prevents root rotation and takes care of healthy roots;
- Suitable for automatic processing;
- The improved rim (compared to 1937) leads to better destacking of the tray;
- The trays are made of 100% recycled PET.

This tray is the successor of the 1937. The 1933 is smaller and 1 cm higher and has a minimum loss of volume.
